[www.gretagreta.eu](https://www.gretagreta.eu)

**Technical Product Specialist and ISTQB® certified QA Architect** with 8+ years of experience bridging business requirements, software quality, and modern AI development. Proven track record of architecting, testing, and shipping production-ready web platforms from scratch (0-to-1). Skilled in serverless backend architectures, custom AI agent integrations, high-accessibility standards, and zero-defect QA methodologies.

## TECHNICAL CAPABILITIES & TOOL STACK

- **AI & Product Building:** Lovable AI, Gemini AI API / Edge Functions, Supabase (Managed Postgres, Auth, RLS), Vercel, Cloudflare, GitHub, HTML5/CSS3, Tailwind CSS.
- **QA & Engineering:** End-to-End Manual Testing, Defect Lifecycle, Test Case Design, Accessibility Auditing (WCAG 2.2 AA / EAA 2025), Mobile Responsiveness, Cross-Browser Testing (BrowserStack), System Logic Verification.
- **Architecture & Security:** Row-Level Security (RLS), Resend API, reCAPTCHA v3, Performance Engineering (Lighthouse 100/100 LCP/FCP optimization), Dynamic i18n, Technical SEO (JSON-LD, LLM readiness).
- **Methodologies & Tools:** Agile/Scrum, Sprint Planning, Jira, Confluence, Trello, Product Ownership, Stakeholder Management.

## FEATURED AI PRODUCTS & ENGINEERING EXPERIENCE

### Lead AI Product Builder & Architect (*Independent Projects*) | 2024 – Present

- **gretagreta.eu** – *Personal Portfolio & AI Assistant Platform* ([gretagreta.eu](https://gretagreta.eu))
  - **System Architecture:** Built an SSR React 19 application featuring an embedded streaming AI chat assistant (Greta AI) acting as a 24/7 automated recruiter interface.
  - **Performance & Analytics:** Optimized Core Web Vitals via aggressive code-splitting (deferring non-critical AI bundles) and built a custom admin portal tracking visitor metrics and verified CV downloads with geolocation data.
  - **Compliance & AI SEO:** Implemented WCAG accessibility standards, GDPR-compliant consent layers, and structured data schemas (JSON-LD + llms.txt) optimized for AI crawlers.
- **DevCraft** - *Bilingual Tech Studio Platform* ([devcraft.gr](https://devcraft.gr))
  - **System Architecture:** Engineered a bilingual (EN/EL) platform featuring an embedded AI Assistant powered by Google Gemini via Supabase Deno Edge Functions.
  - **Performance & SEO:** Achieved near-instant First Contentful Paint (FCP) and engineered structured data for AI Overviews and crawlers (llms.txt).
  - **Security & Auth:** Implemented Row-Level Security (RLS) policies for lead capture, role-based access control (RBAC), and invisible reCAPTCHA v3 protection.

- **CleanUp SKG** - *Commercial Service & Lead Engine* ([cleanupskg.gr](http://cleanupskg.gr))
  - **E2E Delivery:** Built and deployed a multi-language (EL/EN/RU) service platform with dynamic pricing calculation algorithms and modal lead funnels.
  - **Quality & Compliance:** Conducted complete cross-browser, responsive layout, and GDPR compliance validation; integrated automated email infrastructure via Resend Edge API.
- **Lotus Bloom** - *Beauty Studio Platform* ([lotusbloom.gr](http://lotusbloom.gr))
  - **Optimization & UX:** Delivered a high-performance web product scoring **100/100** across all desktop Lighthouse metrics. Integrated WebP mobile variants and keyboard-accessible UI primitives.

## PROFESSIONAL WORK EXPERIENCE

### **Zebracloud AB**, Lithuania (remote) — *QA Product Engineer*

January 2024 - April 2026

- **SaaS Product Ownership & SDLC:** Partnered directly with Developers and Product Owners to refine system logic and business requirements, reducing requirement ambiguity before sprint planning.

- **Strategic & Manual Testing:** Executed end-to-end Manual, Functional, and Regression test suites across Windows, macOS, and mobile devices (iOS/iPadOS) using BrowserStack.

- **Defect Management & STLC:** Structured the full Defect Lifecycle in Jira, creating high-detail bug reports and test scenarios that streamlined developer resolution time.

- **AI-Driven Development & Prototyping:** Leveraged Lovable (No-code AI) to rapidly design and deploy responsive landing pages, UI banners, and client forms, cutting prototyping time from days to hours.

### **Sonaro UAB**, Lithuania (remote) — *Manual QA Engineer*

March 2021 - February 2023

- **Multi-Platform & E2E Testing:** Performed **End-to-End (E2E) testing** and **User Acceptance Testing (UAT)** for diverse E-commerce platforms and complex ERP systems, ensuring seamless performance across mobile and desktop environments.

- **Bug Tracking & Agile Collaboration:** Identified, documented, and tracked bugs in **Jira and Confluence**, collaborating with the development team through the **Defect Lifecycle** and providing actionable product improvement suggestions.

- **Technical Documentation:** Authored comprehensive user manuals, **Test Cases**, and onboarding documentation in English and Lithuanian to facilitate smoother client onboarding and product adoption

### **UAB Capital Realty**, Lithuania — *IT Project Manager*

November 2017 - November 2018

- **Dual Responsibility:** Managed CRM maintenance and sprint planning while simultaneously conducting QA testing for the core web system and corporate pages.

- **Team Leadership:** Led Ruby and PHP development teams through sprint cycles, delegating tasks and monitoring delivery timelines.

- **B2B Relations:** Managed regular communications with international clients in the UK, Spain, and Latvia, ensuring project alignment with business needs.

## **SJ DIGITAL LLC, Lithuania — *IT Project Manager***

May 2016 - November 2017

- **Agile Management:** Orchestrated daily standups and sprint planning for .NET and PHP teams, focusing on the delivery of newly created IT projects.
- **International Stakeholders:** Served as the primary point of contact for B2B clients in the USA and New Zealand.
- **Hands-on QA:** Conducted manual QA for all new project releases to ensure they met client specifications before deployment.

## **COURSES, CERTIFICATIONS**

BCS, The Chartered Institute for IT

### **ISTQB® Certified Tester Foundation Level Certification**

OCTOBER 2023

The Knowledge Academy

### **ISTQB Software Testing Foundation Level Course**

OCTOBER 2023

UDEMY

### **Manual QA Software Testing**

MARCH 2022

## **LANGUAGES**

English C1

Greek (beginner) A1

Lithuanian native

Russian B1

## **EDUCATION**

### **Vilnius University, Lithuania — Higher (*Bachelor*)**

2011-2016

Business Administration
